Beloved Children:

When we look at the flow of energy from the Heart of the Presence into the physical heart, we see a rapidly pulsating river of prismatic light. If we were to slow down the vibratory action of that life energy, we would see that the electrons making up the Flame of the Presence of each one carry a distinct design which differs from all others even as the geometrical perfection of each snowflake is different from all other countless millions of snowflakes.

As this energy is moulded into form by the thought and feeling body and sent forth into the universe, it carries the plan of the original design of the lifestream. That energy goes forth in a handclasp so that the individual receiving the handclasp, when the hand is removed, has upon the palm superimposed over his own energy, many thousands of these tiny forms representative of the lifestream of the initial giver. The second individual then goes on his way - perhaps he combs his hair or clasps another hand - and in this way the electronic particles of the first person go on in an endless chain to many, many parts of the universe.

The outer world has touched the fringe of this in their science of personal magnetism, but they refer to the human effluvia which covers the pure particles of light whereas We refer to the life structure and picture within.

The manner in which the particles are charged forth determines the resulting effect upon the lifestream releasing them. While through the hand they may pass in a handclasp, the dominant feeling of energy as they go forth on their journey will determine whether their passage through the universe carries friendship and love, or otherwise, and on their return journey, of course, they will pick up only the vibrations similar to their own; so they return in due time to their source bringing the initial vibration with which they were sent forth amplified a million-fold with their own kind. If the hand is used to strike in anger, those same particles carry that same vibratory action over their complete circle influencing all the life they touch with the same destructive vibration, and when they have reached the farthest point of their orbit, they start back to their source with more of their kind bringing distress to the one that sent them forth.

If you were to look at an individual with the inner eye, you would see the electrons going out and coming in in circles of all sizes, small and large, and even universal, and these returning circles often account for the change of feeling in the individual as each returning wave brings the result of previous kindness or unkindness into the lower vehicles. According to the manner of sending forth these electrons, dear ones, do we receive happiness or otherwise on their return orbit.

It is to withdraw, reclaim and purify those light particles released in the process of living, thinking, feeling and acting that Saint Germain, in His Mercy, has presented the use of the Flame of Purification. Wise is the man who invokes that

Flame through every electronic pattern that has proceeded from his lifestream from the beginning of time, and bids it flow through the nations of the world, through the psychic and astral realm and all kingdoms, because until every particle is redeemed, there is a certain portion of the lifestream unascended.

Blessings and Love,
